

Fieldgrade v0.9.0-alpha

GovAI accountability pack

1. Cover page

GovAI proof pack for private alpha pilot evaluation.

Human-reviewed AI accountability for a local-first pilot.

Pack type: GovAI accountability pack

Fieldgrade v0.9.0-alpha is suitable for private evaluation, founder-led setup, and pilot deployments. It is not yet a self-serve commercial SaaS or certified compliance product.

Fieldgrade v0.9.0-alpha

GovAI accountability pack

2. Executive summary

Objective: show AI system ownership, prompt/output evidence, and review state.

Result: pilot buyer can open one pack and see accountability controls.

Pack type: GovAI accountability pack

Fieldgrade v0.9.0-alpha is suitable for private evaluation, founder-led setup, and pilot deployments. It is not yet a self-serve commercial SaaS or certified compliance product.

Fieldgrade v0.9.0-alpha

GovAI accountability pack

3. Evidence register

System register, prompt log, output sample, and review decision are attached.

Model and version fields are visible.

Pack type: GovAI accountability pack

Fieldgrade v0.9.0-alpha is suitable for private evaluation, founder-led setup, and pilot deployments. It is not yet a self-serve commercial SaaS or certified compliance product.

Fieldgrade v0.9.0-alpha

GovAI accountability pack

4. Review timeline

System registered, evidence captured, reviewer note recorded, public summary prepared.

Approval gate stays explicit.

Pack type: GovAI accountability pack

Fieldgrade v0.9.0-alpha is suitable for private evaluation, founder-led setup, and pilot deployments. It is not yet a self-serve commercial SaaS or certified compliance product.

Fieldgrade v0.9.0-alpha

GovAI accountability pack

5. AI accountability section

AI output is shown as review material, not automatic truth.

Model context and reviewer rationale stay in the pack.

Pack type: GovAI accountability pack

Fieldgrade v0.9.0-alpha is suitable for private evaluation, founder-led setup, and pilot deployments. It is not yet a self-serve commercial SaaS or certified compliance product.

Fieldgrade v0.9.0-alpha

GovAI accountability pack

6. Finding summary

Open question: external endpoint use must match pilot data boundaries.

Mitigation: local-only pilots can disable external AI endpoints.

Pack type: GovAI accountability pack

Fieldgrade v0.9.0-alpha is suitable for private evaluation, founder-led setup, and pilot deployments. It is not yet a self-serve commercial SaaS or certified compliance product.
